PDF Vector image test

This tests reading PDFs using the vectorpdf extension ("-e vectorpdf"). This extension relies on pdfrw.

Here is page 6 from the demo manual:

2.9 Block Quotes

Block quotes consist of indented body elements:

> My theory by A. Elk. Brackets Miss, brackets. This theory goes as follows and begins now. All brontosauruses are thin at one end, much much thicker in the middle and then thin again at the far end. That is my theory, it is mine, and belongs to me and I own it, and what it is too.
>
> Anne Elk (Miss)

2.10 Doctest Blocks

```
>>> print 'Python-specific usage examples; begun with ">>>"'
Python-specific usage examples; begun with ">>>"
>>> print '(cut and pasted from interactive Python sessions)'
(cut and pasted from interactive Python sessions)
```

2.11 Tables

Here's a grid table followed by a simple table:

Header row, column 1 (header rows optional)	Header 2	Header 3	Header 4
body row 1, column 1	column 2	column 3	column 4
body row 2	Cells may span columns.		
body row 3	Cells may span rows.	• Table cells	
body row 4		• contain	
		• body elements.	
body row 5	Cells may also be empty: - ->		

Inputs		Output
A	B	A or B
False	False	False
True	False	True
False	True	True
True	True	True

2.12 Footnotes

2.13 Citations

Here's a reference to the above, [CIT2002], and a [nonexistent]_ citation.

2.14 Targets

This paragraph is pointed to by the explicit "example" target. A reference can be found under Inline Markup, above. Inline hyperlink targets are also possible.

Section headers are implicit targets, referred to by name. See Targets, which is a subsection of Body Elements.

Here is a portion of that same page:

	Header 2	Header 3	Header 4
	column 2	column 3	column 4
	Cells may span columns.		
	Cells may span rows.	• Table cells	
		• contain	
		• body elements.
